

US 1 Corridor Study –Phase 2

RFP Questions Received

July 12, 2011

Q: Section 1.8, Qualifications for Award, item 4c: by “a complete set of Proposer’s technical publications” are you asking for an example of a relevant technical report? Is this only for the prime firm or all team members?

A: Yes, an example of a relevant report. There should be at least one final report from a similar type project led by the prime firm; if there are others where other team members contributed significantly in a fashion similar to their proposed role in this project, that would be helpful as well.

Q: Section 1.9, Evaluation Procedures: one example of previous experience is requested; is that one for the entire team, one for each firm, or at least one?

A: At least one, others if necessary to highlight work of multiple team members. We are looking for quality, not quantity, on this item!

Q: The RFP indicated that they want a list of properties in the US to which the Proposer has completed a similar type of contract in the last 24 months.

They also want verification that adequate personnel are available to handle any production problems and provide required service after completion of contract.

Did they mention where they want this information – in the proposal? Separate?

A: These items can be submitted as an attachment to the proposal.

Q: For the CD referred to on page 13 item 4, do you want 10 copies for each report or just one?

A: One

Q: In terms of the corporate seal, do we need 10 copies or just 1. Does the corporate seal also require a notary public seal. Is there an official form this should be on or simply as part of the cover letter?

A: This is usually just part of the cover letter.

Q: The written RFP specifically states a budget of \$230,000 versus the \$250,000 mentioned at the pre-proposal meeting. Which is correct?

A: \$230,000

Q: Have there been any additional formal addendums or response to comments that may have not posted yet?

A: Running list of questions and answers is updated daily (or as questions arrive) on the RFP website: <http://www.campo-nc.us/rfprfq.html>.
